

**Running List of Typos for 2nd Edition of
Analyzing Financial Data and
Implementing Financial Models Using R
July 13, 2021**

The following is a running list of typos for the 2nd edition of my book Analyzing Financial Data and Implementing Financial Models Using R.

1. **Page 30:** In Step 3, Lines 1 to 3 below are missing. The complete output should read as follows:

```
1 > (normalize <- close.prc[1, ])
2     AMZN    GOOG    AAPL    SPY
3 2014-12-31 310.35 524.9587 110.38 205.54
4 > norm.prc <- close.prc
5 > norm.prc$AMZN <- close.prc$AMZN / as.numeric(normalize[1, 1])
6 > norm.prc$GOOG <- close.prc$GOOG / as.numeric(normalize[1, 2])
7 > norm.prc$AAPL <- close.prc$AAPL / as.numeric(normalize[1, 3])
8 > norm.prc$SPY <- close.prc$SPY / as.numeric(normalize[1, 4])
9 > head.tail(norm.prc)
10      AMZN      GOOG      AAPL      SPY
11 2014-12-31 1.0000000 1.0000000 1.0000000 1.0000000
12 2015-01-02 0.9941034 0.9969795 0.9904875 0.9994648
13 2015-01-05 0.9737071 0.9761967 0.9625838 0.9814148
14      AMZN      GOOG      AAPL      SPY
15 2019-12-27 6.024811 2.575231 2.625476 1.570789
16 2019-12-30 5.950991 2.545229 2.641058 1.562129
17 2019-12-31 5.954052 2.546905 2.660355 1.565924
```
